

# Inverter Drive

## REPLACEMENT GUIDE

IMO

IMO has been manufacturing inverter drives since the launch of the first Jaguar in 1986. Since then, we have been at the cutting edge of inverter drive design, with the market-leading Jaguar range leading the way. The Jaguar range is offered with a 5 year warranty, our other drive ranges are offered with a 2 year warranty.

### Are you looking for a replacement inverter drive?

If your existing inverter drive needs replacing for whatever reason, did you know you could replace it with an IMO inverter drive?

Even though you may have an inverter drive manufactured by ABB, Siemens, Mitsubishi, Schneider, Danfoss, or any other inverter drive manufacturer, we can offer you a suitable replacement that will offer you the high quality IMO are renowned for, with the ratings and special features you need for your application.

### Variable Speed Drives to meet every budget...

*SD1*

#### SD1

0.4kW to 110kW  
Single & Three Phase

UL approved  
general purpose drives  
IP20

*HD2*

#### HD2

1.5kW to 500kW  
Three Phase

Dual rated  
UL approved  
drives with advanced  
communications  
IP20,  
integrated C3 filter  
C1 & C2 filter options

*HD2IP*

#### HD2IP

5.5kW to 132kW (ND)  
4.0kW to 110kW (HD)  
Three Phase

Dual rated  
UL approved  
drives with advanced  
communications  
IP55,  
integrated C3 filter  
C1 & C2 filter options

*JAGUAR*

#### Jaguar VXT

0.4kW to 315kW  
Single & Three Phase

Quadruple rated,  
general purpose drives  
IP20,  
filtered & unfiltered  
models

*JAGUAR*

#### Jaguar VXA

0.75kW to 710kW  
Three Phase

Industry specific  
drives for Water  
IP55  
integrated EMC filter  
up to 90kW

### Challenge us with your existing drive part number...

At the very least, if you are able to provide us with the manufacturers part number of the drive you are looking to replace, we will find you the perfect replacement. We can also accept the motor current rating and supply input (or motor rating) and any application information such as if it is for a pump/fan, conveyor etc.
